

Installing Web Apps on PCs.

Installation via Google Chrome

1. Open Edge and go to the website you want to install as an app.
2. Click the three dots in the top right corner and select "More tools" > "Apps" > "Install this site as an app".
3. Enter a name for the app and follow the on-screen instructions.
4. Once installed, the web app will appear as a standalone window and can be launched from the desktop or taskbar.

Installing Web Apps on Mobile Phones.

For Android devices

1. Open the browser: Launch the Google Chrome browser and navigate to the desired website.
2. Open the menu: Tap the three dots in the top right corner to open the menu.
3. Add to home screen: Select "Add to Home screen". Confirm the selection, and the website's icon will appear on your home screen.

For iOS devices (iPhone/iPad)

1. Open the Safari app and go to the website you want to save.
2. Open the share menu: Tap the share icon at the bottom of the screen.
3. Scroll down through the list of options and select "Add to Home Screen".
4. Add: Enter a name for the icon and tap "Add". The icon will now appear on your home screen, and tapping it will open the website like an app.
